(01) OUR STORY · NATA DALLA LUCE

Born from light.

> “Emerald green stands as our signature: deep, luminous, and alive with movement. It was this palette of acetate, and the way it captures and transforms light, that inspired our name.”

For **27** years, our founder worked as an optician serving New York’s elite: presidents, dignitaries, diplomats and movie stars. Searching was no longer enough. **The only answer was to create it.**

(02) CRAFT

Pure craftsmanship.
Made to move.
